SECTION-1

1. PREAMBLE

The Constitution of India has placed 'education' as the fundamental right of every citizen of the country. Higher education, the pillar of career and leadership building, plays a vital role in the social and economic development of a society and the nation. Great role and responsibility are entrusted to the Higher Education Institutions (HEIs) in building strong leadership and well-knit society through excellence in academics, ethical curricula and community engagement. Similarly, the purpose of education in Dr. C.V. Raman University in particular is to facilitate actualization of human potential by making its stakeholders, particularly higher educational administrators, teachers, and learners, conscious of human values and professional ethics. Therefore, HEIs are required to create high quality practices and an environment that is supported with human values and professional ethics to ensure their dignity and integrity. Physical-psychological knowledge and financial infrastructure of the institution needs to grow with values and ethical practices. **This Handbook of 'Code of Ethics'** describes the principles and guidelines to be followed by all the stakeholders of this University (CVRU).
