Than explains what the function of the elements is in the process, further makes a plan for the tutoring and assessment process and follows the following pathway of (TCK+TPK+PCK – TPCK. 4.Ensuring quality content delivery: by making accessible academic and technical advisers who can assist students throughout the duration of the program. 5.Review and improve the program by including all relevant stakeholders: such as area businesses and professional associations—in discussions about course and program content and design. 6.Desktop Videoconferencing and Internet Videoconferencing: For students and learners who are equipped with computers, desktop video conferencing and internet video conferencing is possible. Equipment needed by the instructor is limited to a computer, computer camera, and microphone. This form of video conferencing is less expensive than satellite and microwave, though the quality is usually lower and a high-speed internet connection is essential for effective use. One of the well-known example of videoconferencing software at CVRU is skype.

ii) Give Best Practices of Institution

1. Raman Radio 90.4: first community radio at university in Central India where we provide the audio lecture delivery of various courses of various discipline. 2. Implementing Technology and media in ODL Mode : - CVRU has implemented and introduced the random use of technology and media in tis ODL mode for LSCs activities, Curriculum/SLM, PCP's, placements, exam and evaluation for better up-gradation of quality and its enhancement and assurance as modern technology which has now a days played a strong role in implementing ODL in HEI's. 3.Formation of Learner-centric group (WhatsAPP/Email-ID repository) for all the approved ODL programmes at an individual manner: To Solve any kind of academic issues, students knowledge base question, assignment related information or questions or any issues related to e-learning materials, SLM etc, CVRU-IODE has framed small subject-based group for all programmes and makes a sketch of the different element of the ODL model to the specific subject area. Than explains what the function of the elements is in the process, further makes a plan for the tutoring and assessment process and follows the following pathway of (TCK+TPK+PCK – TPCK. 4.Implementation of Tutor-marked online assignment evaluation system :- Instead of running the manual process of evaluation, CVRU has implemented a Tutor-marked online assignment evaluation system and put forth a significant step towards its quality up gradation as one of its leading best practices. 5.Formation of full-time active CVRU-ODL helpdesk to resolve the issues related to continuous learner information seeking, ODL Guidelines and Queries and admission procedures. 6.Implementation of ICT-based methodology for continuous Counselling sessions. 7.CVRU has introduced online feedback mechanism for all its learners and counsellors to generate student – centric and faculty centric feedback related to support and services, infrastructure and support followed by its feedback analysis and the action-taken report. 8.To enhance and upgrade the quality and skills of the academic and non-academic staff members such as the counsellor, programme co-ordinators, course co-ordinators etc, the University (CVRU-IODE) periodically arranges various workshops/Training Programmes/FDPs/Seminars based on ODL Quality tools and promotes them to attend the training activities organized in various Govt. authorized bodies and institutions continuously within the country and abroad.

iii) Any other Information

Online Collaboration: Internet Chat and Conferencing at CVRU-ODL Though email is asynschronous, there are synchronous computer technologies that can be utilized for distance education courses at CVRU IODE ODL mode. These include online chat, shared white boards, and videoconferences. Online chat, also called instant messaging, can be between two people, for example instructor and student, or numerous people via a chat room. As each person types and enters a message the information is transmitted instantaneously to other individuals included in the chat session. Instant messaging allows for real-time communication. Instructors can utilize this technology to establish virtual office hours when they will be available to answer student questions or engage subjects in an online course discussion. Since chat is an internet-based technology students and instructors need not be concerned with phone charges for this form of communication. Chats are useful at CVRU for communicating across large distances with students that have internet access.
