

Dr. C. V. Raman University

HEI Profile & Administrative Details

**Final Submission Status :
Submitted**

**Final Submission Date :
9/15/2026 2:40:11 PM**

Application Submitted For: Academic Year **2026-27**, Session **January-February**, Programme **Both**

HEI Basic Information :

Registration ID: DEB-U-0084	Name of the HEI: Dr. C. V. Raman University	Institution Type: Private University	Year of Establishment: November 2006	Mode of Education: Dual Mode
Address_1: DR. C.V. RAMAN UNIVERSITY,, Kargi Road,Kota Bilaspur,Bilaspur,495113, City: Bilaspur, District: Bilaspur, State: Chhattisgarh, Pincode: 495113, Telephone: 9425227921, Email: registrar@cvru.ac.in		Official Website of HEI: www.cvru.ac.in	Official website for ODL and Online Learning: www.cvru.ac.in	

HEI Authorities

Vice Chancellor

Name of the Vice Chancellor: DR. PRADEEP KUMAR GHOSH	Vice Chancellor Official Email: VC@CVRU.AC.IN	Vice Chancellor Mobile: 7725886239	Phone (Office): 7753253804
---	---	--	--------------------------------------

Registrar

Name of the Registrar: DR. ARVIND KUMAR TIWARI	Registrar Official Email: arvindtiwari@cvru.ac.in	Registrar Mobile: 9425227921	Phone (Office): 7753253802
---	---	--	--------------------------------------

Director of Centre for Distance and Online Education (CDOE)

Name of Director of Centre for Distance and Online Education(CDOE) / Director of Online Education(COE) DR. Vivek Bajpai	Email Id(Official): vivekbajpai@cvru.ac.in	Mobile No: 9827902244	Designation: Professor	Appointment Letter: View	Joining Report: View
Highest Education Qualification: Ph.D					

For Dual mode University

Name of Centre (CDOE): CDOE	Address: Kargiroad, Kota, Bilaspur (Pin:495113)	Telephone: 9827902244	Email: vivekbajpai@cvru.ac.in

Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

The Higher Education Institution utilizes a fully unified, cloud-native academic platform that seamlessly integrates the Learning Management System (LMS) with the Academic ERP, live video teaching, and assessment engines into a single monolithic ecosystem. This self-contained architecture eliminates the need for external middleware, ensuring instantaneous, zero-latency data flow for learner profiles and grades across all administrative functions.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

<https://digital.cvr.u.ac.in/login.jsp>

Assessment mechanism

The University has instituted a comprehensive, multi-tiered assessment ecosystem strictly compliant with UGC norms, covering both continuous formative evaluation and end-semester summative examinations: Continuous Internal Evaluation (University Grants Commission (Open and Distance Learning Programmes and Online Programmes) Regulations, 2020.): Delivered entirely through the LMS, incorporating real-time objective quizzes (MCQs), case study analyses, problem-solving assignments, discussion board participation rubrics, and automated coding evaluation for technical curricula. End-Semester Examination (Open and Distance Learning Programmes and Online Programmes) Regulations, 2020.): Conducted in a secure, remote-proctored environment using a dedicated Secure Exam Application that enforces lockdown browsing (preventing screen sharing, virtualization, external displays, copy-paste, and unauthorized applications). Remote Proctoring Architecture: Features automated AI-enabled 360-degree monitoring (tracking facial recognition, multi-face/no-face detection, gaze deviation, object/mobile detection, and ambient acoustic monitoring) combined with live human invigilation at a strict proctor-to-student ratio (1:20 / 1:25). Question Paper Management System (QPMS): Secure, role-based question banking mapped to Bloom's Taxonomy and Program/Course Learning Outcomes (POs/COs), automated randomized paper generation, tamper-proof digital evaluation workflows, and audit trails for re-evaluation and result publication.

Identified technological interface and interoperability	The institution utilizes a fully unified, cloud-native, all-in-one academic technology platform that natively integrates all academic, administrative, and delivery functions within a single monolithic ecosystem. Natively Integrated Single-Platform Architecture: The platform is purpose-built as a self-contained suite encompassing the Academic ERP, Learning Management System (LMS), Live Video Teaching Module, Question Paper Management System (QPMS), Proctored Assessment Engine, Discussion Forums, and Student Lifecycle Management. Because every module is native to the platform and operates on a single consolidated database and codebase, external interoperability bridges (such as standalone LTI plugins or multi-vendor middleware) are not required. Zero-Latency Data Flow & Data Integrity: Learner profiles, course enrolments, live class attendance, continuous learning activity, and assessment grades flow automatically and instantaneously across modules without the risk of API drops, data synchronisation delays, or schema mismatches. Role-Based Access Control (RBAC): A unified security interface governs access across all modules through a single sign-on (SSO) session, providing granular, role-based controls for Administrators, Course Coordinators, Course Mentors, Evaluators, and Learners. Enterprise Cloud Hosting & Scalability: Hosted on an enterprise-grade, auto-scaling cloud infrastructure ensuring 99.9% uptime, end-to-end data encryption (SSL/TLS 1.3 in transit and AES-256 at rest), and high concurrency to seamlessly support simultaneous live teaching and large-scale proctored examinations across all academic departments.
Learner's Authentication Requirements	The University enforces a multi-tier identity authentication workflow across the academic and examination lifecycle: Admission & Onboarding: Learner identity is verified against official government photo ID proofs (Aadhaar, Voter ID, PAN, or Passport for international students). Students submit their APAAR / ABC ID / DEB ID during admission or via guided onboarding before course registration to ensure mandatory credit deposition in NAD. A verified master profile with an official registration photograph is created on the platform. Routine LMS Access: Individual login credentials governed by Role-Based Access Control (RBAC), automatic session timeouts, and single-session enforcement to prevent concurrent logins for the same exam. Pre-Exam Verification: Candidates undergo mandatory AI facial recognition via webcam, matching their live face against the stored registration photograph before the test unlocks. In-Exam Monitoring & Human Oversight: The AI engine periodically checks presence and facial match, temporarily blocking the exams if a discrepancy occurs. Human invigilators validate alerts via live video in real time, record observations, and exercise full administrative controls to warn, block/unblock, or terminate sessions with preserved audit logs.
Learner Registration - through a web application	Yes. The entire learner lifecycle—from admission enquiry and registration to graduation—is fully automated through an end-to-end web application: Digital Onboarding & e-KYC: Prospective learners submit applications online, upload eligibility credentials and identity proofs, and undergo online document verification. National Identifier Integration: Mandatory integration with the Academic Bank of Credits (ABC ID / APAAR ID/ DEB ID) and DigiLocker ensures seamless credit accumulation and mobility as prescribed by UGC / NEP 2020. Automated Cohort & Course Mapping: Upon fee payment, the university generates unique roll numbers, and auto-enrols learners into their specific degree programme, semester, cohort, and academic courses, giving immediate access to the LMS.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	The platform maintains continuous learner engagement and institutional oversight through a balanced pedagogical and analytical framework: SensAI Interactive Learning Bot: The LMS features an integrated SensAI learning bot contextualized directly to the active learning content. Functioning on a Socratic pedagogy, SensAI acts as an interactive academic tutor that nudges students, provides conceptual hints, and clarifies doubts in real time to stimulate critical thinking—deliberately avoiding direct solutions or unearned answers to assessments. Structured Four-Quadrant Course Delivery: Curriculum delivery strictly adheres to UGC's four-quadrant structure: Quadrant-I (e-Tutorial): Asynchronous high-definition video lectures paired with scheduled live virtual classes and interactive doubt-clearing sessions. Quadrant-II (e-Content): Digital Self-Instructional Material (SIM), reading packs, and relevant case studies. Quadrant-III (Discussion & Collaboration): Moderated peer discussion forums and mentor threads to address subject-specific queries. Quadrant-IV (Assessment): Continuous self-assessment quizzes, progressive assignments, and hands-on coding exercises. Learner Telemetry & Engagement Analytics: The platform continuously captures granular telemetry, recording video completion rates, reading duration, SensAI interaction depth, discussion board participation, and formative assessment attempts. Early-Intervention Reporting & Monitoring: Automated dashboards translate engagement telemetry into actionable metrics for Course Coordinators and Mentors. Configured early-warning alerts identify low-activity or at-risk learners early in the semester, enabling timely faculty outreach and academic support.
Payment Gateway –using Digital Payment system	The University's admission and learner portal is integrated with RBI-authorized, PCI-DSS compliant digital payment gateways (supporting Net Banking, UPI, Credit/Debit Cards, NEFT/RTGS, and digital wallets). Automated Reconciliation: All fee transactions generate instant, digitally signed receipts, update the student ledger in real-time within the ERP, and automatically unlock semester access. Auditability & Refunds: The gateway maintains transparent financial transaction audit trails and fully supports statutory institutional refund policies in strict accordance with UGC fee refund guidelines.

Tracking the delivery of a Course or programme	The University maintains comprehensive administrative and academic oversight over programme delivery via centralized ERP and LMS tracking: Academic Calendar Compliance: Tracking tools ensure each course strictly delivers the mandatory learning hours distributed evenly across the 4-quadrant modules over the semester timeline. Learner Progress Monitoring: Real-time visibility into individual and batch-level progression, credit fulfilment, internal assessment completion milestones, and examination readiness. Audit Trails: Immutable, time-stamped system logs record all content deliveries, assessment attempts, and grade changes to facilitate institutional internal quality audits (CIQA).
Technical Know-how or Skills Requirements	The technical prerequisites and continuous support ecosystem are defined as follows: Learner Requirements: Basic digital literacy (proficiency in operating standard web browsers, document viewers, and virtual conference tools). Accessible across standard OS (Windows, macOS, Linux, Android, iOS) with standard internet connectivity (minimum 512 Kbps for content; 1 Mbps for live video/proctored exams). A mandatory 'Orientation to Online Learning' module is provided upon admission. Faculty & Staff Enablement: Continuous professional development administered by the Centre for Distance and Online Education (CDOE) covering online pedagogy, digital content creation, assessment authoring, LMS management, and online proctoring protocols. Helpdesk & Support: A multi-channel Technical Support Desk (email and phone) operating with clear service-level agreements (SLAs) to assist learners and faculty with platform navigation.

Learning Platform

Learning Platform :- (Non-SWAYAM) Non- SWAYAM

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The University has deployed a dedicated, high-availability Information and Communication Technology (ICT) infrastructure optimized for end-to-end Online Programme delivery on cloud: Digital Media Recording & Production Studios: Acoustic-treated in-house multimedia production facilities equipped with 4K cameras, teleprompters, digital interactive smart-boards, high-end audio hardware, and licensed editing suites for recording Quadrant-I e-tutorials. Cloud-Based LMS & ERP Platform: A state-of-the-art, scalable SaaS/cloud architecture providing high-concurrency handling for thousands of simultaneous learners, automated database backups, SSL encryption, and high-availability CDN (Content Delivery Network) distribution. Dedicated Bandwidth & Data Center: High-speed internet connection ensuring uninterrupted live lectures, content rendering, and examination operations. Security & Compliance: Platform operations align with national data protection standards, ISO 27001 information security frameworks to ensure user data integrity and privacy.
